# ROCKBUSTER STEALTH RECOMMENDATIONS

- Based on the analysis, the company should observe the geographic analysis to identify the countries with the highest consumption of films in order to direct resources to them. In this case: India, China and EE.UU.
- Focused on customers; after having identified the largest film consumers, the company could direct its resources to building loyalty with them.
- Regarding film genres, there is no significant variation between the most consumed movie genres, but this information can be used to segment the 5 best-selling movie genres (Sports, Foreign, Family, Animation, Documentary) and make greater sales and promotion efforts for them.
